

Team: Binary Ninjaz

Report of last week's work:

- Shaun added email verification and reviewed store listings.
- Letanyan added email verification and compiled App Store store listings.
- Sizo touched up on login and sign up UI and compiled Play Store store listings.
- Teboho touched up on login and sign up UI and reviewed store listings.
- Kevin fixed a couple of bugs in the analytics and reviewed email verification.
- John added email verification and compiled Play Store store listings.

Comment: As majority of the team have multiple semester tests in the coming week, I have tried to decrease the normal work load I give.

Coming week's work assignment:

Name:	Work assignment:
Shaun Yates	Landing page, monitor Play Store app usage and requirements document
Letanyan Arumugam	User manual, monitor database usage and landing page.
Sizo Duma	Review finances, monitor database usage and coding standards.
Teboho Mokoena	Requirements, monitor Play Store app usage document and testing policy.
Kevin Reid	Coding Standards, monitor database usage and testing policy.
John Ojo	User manual, monitor Play Store app usage and tracking finances.
