Team: Binary Ninjaz

Report of last week's work:

- Majority of the platform syncing has been done, just a few design and hint message adjustments left.
- The carousel has been made, but still needs to be finalised and reviewed.
- We have found a way to decrease power usage but more extensive tests need to be done.

Coming week's work assignment:

Name:	Work assignment:
Shaun Yates	Description/intro to web system, review user settings, test power usage, finalise deployment documentation
Letanyan Arumugam	Review graphs, decrease error in approximate yield calculation, finalise tutorial, finalise deployment documentation
